---

### WORK EXPERIENCE

---

#### Senior Web Developer - Booz Allen Hamilton. (March 2015-Present)

Member of a team tasked with moving the U.S. Department of Health and Human Services and FDA to Drupal from other platforms.

- Automated process of migrating content from older environments to Drupal.
- Lead the efforts to move development workflow to DevOps and contribute to Open Source.
- Enhanced site functionality with custom Drupal 7 & Drupal 8 modules.
- Transitioned existing Drupal 7 sites to Drupal 8.

#### Web Developer - Arbola Inc. (February 2013-March 2015)

Member of a team dedicated to building, improving and maintaining USAID's web presence.

- Designed and developed WordPress themes, Drupal themes, Drupal modules, Google Search Appliance Frontends, and static HTML sites for USAID.
- Successfully planned, developed, and launched a modernized Intranet site.
- Advised USAID on current web technologies, trends, and tools and why we should use them.
- Oversaw the operation and maintenance of five Google Search Appliances.
- Collaborated with several teams in an Agile working environment.

**Senior Frontend Consultant - Creative Circle** (February 2013-November 2013)

Motivated Web Developer tasked with finishing up several projects for PCI communications.

- Assisted in-house developers in creating websites using Joomla, WordPress, static HTML, and their custom-built CMS.
- Advised PCI Communications on which tools and technologies needed to accomplish their goals.
- Clients include FDIC, Coast Guard, CropLife, Force3, U.S. Coast Guard Boating Safety, and PCI Communications.

**Junior Web Designer - BOSS Group** (May 2012-February 2013)

Company-minded team player...results oriented...efficient, professional, web designer adept at using and implementing many different technologies.

- Designed and developed websites for Georgetown University Alumni Association which incorporated web technologies such as responsive design and canvas.
- Created mockups, wireframes, banners, logos, and other graphical elements using Adobe Photoshop.
- Built websites and online games using HTML5, CSS3, jQuery, and third party APIs.

---

**EDUCATION AND CERTIFICATIONS**

---
